Subject: DOC Population Breakout: 3<sup>rd</sup> Quarter 2014, September 30, 2014

The following information is based on the DOC Institution Population on September 30, 2014. This report is divided into four sections.

Section 1 gives a general overview of the DOC institution population on September 30, 2014. The first table describes the DOC institution population using the offender level and sentence type versus the institution. Institutions are separated into three types, Prison, Community Corrections and Other which includes the Delaware Psychiatric Center and Compact Cases. The second table provides a historical look by quarter of the DOC institution population by offender type and status. Consistently, the prison population hovers around 50% of the total institutional population, jail between 7 and 8%, lifers between 7 and 8%, and detention ranging from 19% to 24%. Between 11 and 13% are Level IV and less than 0.3% are Level III. The remaining 1% of the Level V DOC institution population is mostly indefinite sentence offenders and 0.2% of the population is inmates sentenced to death. The third table in Section 1 illustrates the change in the institution population from June 30, 2014 to September 30, 2014. An overall increase of 106 offenders has occurred in the population between June 30<sup>th</sup> and September 30<sup>th</sup>, with an increase in Prisons of 81 offenders, an increase of 24 offenders in Community Corrections, and an increase of 1 offenders in Other facilities. This is the third consecutive quarter in which the population has increased.

Section 2 describes the demographic make-up of the DOC institution population on September 30, 2014. Just about 55% of the institution population is Black while 44.9% are White, and the remaining 0.1% is Other/Unknown. Over 91% of the population is Male, and 8.8% is Female. In addition, 57.3% of the population is under the age of 35, with 77.1% of the population under the age of 45.

Section 3 portrays the length of stay for both the detention and sentenced populations in a DOC institution on September 30, 2014. Almost 70% of the detention population has been detained for 90 days or less, with 2.6% detained more than 1 year. More than 50% of the sentenced population has served 1.5 years or less with 22.5% having served 5 years or more and 8.5% of the population having served 10 years or more. The final table describes the expected release for sentenced offenders with 52.9% of the September 30, 2014 sentenced population expected to be released in the next two years.
