Subject: DOC Population Breakout: 2nd Quarter 2013, June 30, 2013

The following information is based on the DOC Institution Population on June 30, 2013. This report is divided into four sections.

Section 1 gives a general overview of the DOC institution population on June 30, 2013. The first table describes the DOC institution population using the offender level and sentence type versus the institution. Institutions are separated into three types, Prison, Community Corrections and Other which includes the Delaware Psychiatric Center and Compact Cases. The second table provides a historical look by quarter of the DOC institution population by offender type and status. Consistently, the prison population hovers around 50% of the total institutional population, jail between 7 and 8%, lifers around 8%, and detention ranging from 19% to 22%. The remaining 1.5% of the Level V DOC institution population is mostly indefinite sentence offenders and less than 0.3% of the population is inmates sentenced to death. The third table in Section 1 illustrates the change in the institution population from March 31, 2013 to June 30, 2013. An overall increase of 96 offenders has occurred in the population between March 31st and June 30th, with an increase in Prisons of 81 offenders, an increase of 11 offenders in Community Corrections, and an increase of 4 offenders in Other facilities. This increase follows a 150 person increase from 4th quarter 2012 to 1st quarter 2013.

Section 2 describes the demographic make-up of the DOC institution population on June 30, 2013. About 56.5% of the institution population is Black while 43.4% are White, and the remaining 0.01% is Other/Unknown. Just over 91% of the population is Male, and 8.6% is Female. In addition, almost 68% of the population is under the age of 35, with 87% of the population under the age of 45. This is a 10% difference from 1st quarter 2013 where 58% of the population was under 35.

Section 3 portrays the length of stay for both the detention and sentenced populations in a DOC institution on June 30, 2013. Seventy-five percent of the detention population has been detained for 120 days or less, with only 1.9% detained more than 1 year. More than 50% of the sentenced population has served 1.5 years or less with 8% of the population serving 10 years or more. The final table describes the expected release for sentenced offenders with 54.5% of the June 30, 2013 sentenced population expected to be released in the next two years.
