Subject: Superior Court Detention Case Status of Long Term Detainees: 4<sup>th</sup> Quarter 2011, December 31, 2011

This updated quarterly report provides an overview of Superior Court detention population cases for defendants detained longer than 120 days in a Level V Delaware Department of Correction (DOC) secure facility or the Delaware Psychiatric Center. Although the detainees may have more than one case for which he/she is being held, only the case with the highest charge for which an individual is being held is reported. This report also gives the statewide and county breakdowns for the Superior Court detainee population in a secure DOC facility 120-days or more for the 4<sup>th</sup> quarter of 2011, and a historical look of these populations since the 1<sup>st</sup> quarter of 2008.

There are numerous reasons why an offender with a Superior Court case may be detained in a secure facility for 120 days or more. Superior Court detainees with no specific case complications are found in the category of "active" detention cases. These "active" cases are following normal court processes and have not been sentenced as of the end of the quarter. The second group of detainee cases, "other non-sentenced detention cases" are those consisting of persons with cases involving psychological issues, and those defendants found guilty but awaiting sentencing. Murder 1<sup>st</sup> degree cases are also in this "other non-sentenced" category. These cases are not held to the same time processing standards as "active cases."

The statewide Superior Court detention population summary, found in Table 1, shows a population of 264 individuals that have been detained longer than 120 days. Of these 264 individuals, 158 cases are pending disposition without exceptional circumstances. Sixty-six are guilty but awaiting sentencing, 30 are Murder 1<sup>st</sup> cases, and the remaining 10 cases are waiting on some type of psychological evaluation. All 10 individuals awaiting psychological evaluations are being held at the Delaware Psychiatric Center.

The second, third and fourth tables, show a detailed breakout by county. New Castle County has the largest percent of the statewide Superior Court detention population (71.9%). The remaining 28% of Superior Court cases are split between Kent County (16.7%) and Sussex County (11.4%).

The final table displays the Superior Court detention population by quarter since March 31, 2008. The total 4<sup>th</sup> quarter 2011 Superior Court detention population has increased overall by 8 individuals, with a 5 person decrease in active cases, and a 13 person increase in the non-sentenced detention category. The current Superior Court detention population for 2011 follows similar patterns from 2008, 2009 and 2010 with 1<sup>st</sup> and 2<sup>nd</sup> Quarter decreases with 3<sup>rd</sup> and 4<sup>th</sup> Quarter population increases.
